Editorial

TO THE PEOPLE OF ST. LOUIS

WHERE HAVE WE BEEN?
WHERE ARE WE NOW?
WHERE ARE WE GOING?
WHAT WILL WE DO?

There are questions to be answered, really—but will be found perplexing in the long run.

WHERE HAVE WE BEEN? Yes, other cities, with large and even smaller populations of Negroes than in St. Louis, have increased in business, and possessors of Negro banks and financial institutions that support Negro business. St. Louis has none. WHY? Think about it.

WHERE ARE WE NOW? Recently, several streets containing select property were opened to Negroes and the property sold. Within a year or two, the first deals of trust will fall due. Can you rely on white financial institutions to take care of these deals? If you are one of the above stated property holders, do you feel able to take care of such, without the aid of a bank or institution that handles such loans? If you will head such a loan, where will you get it and HOW? Think about it.

WHERE ARE WE GOING? St. Louis is badly in need of an institution which will support them during business depressions. Have we an institution of this kind here? Will we have one? How will we get it? When will we get it? St. Louis is also in need of a first class office building, one containing select offices, as are in our downtown district. Who here can erect it? If so, who will? And WHEN? Think about it.

WHAT WILL WE DO? The problem has been placed before you. You say "Yes" these things are true but what can we do? We are willing to do our part but the problem is a large one. It is the future of St. Louis. The solution is in the main article—are you PROGRESSIVE or will you MARK TIME?

THE DOERS OF THINGS BRINGS SUCCESS

DESIRE OF BETTER CITIZENSHIP NOW HAVE A CHANCE TO MATERIALIZING

James T. Bish, Supreme, Escort Sponsor for a Great Move. Are you Progressive or are you going to mark time? THE HOME OFFICE of the American Woodmen, a Fraternal Insurance Co., with total assets of over one million dollars is going to move. Denver, Colorado, the Home Office of the Woodman, with a small population of Negroes, will be no longer able to retain this great institution.

INDIANAPOLIS, Chicago, Philadelphia and other large cities are in the race to get the Home Office in their territory, for they know that a great asset it will be to their people, business and government.

ST. LOUIS, also, holds an advantageous spot in the race. First, it will afford greater progress to the Home Office than any other city. It is far enough north for northern cities to claim it and far enough south for southern cities to claim it.

BUSINESS AND property are here and wise and substantial investments of the Supreme Camp can be launched here, the minute they set foot in this territory. The Chamber of Commerce wants it here—churches, business and other societies want and need it here.

MR. C. M. WHITE, the Supreme Commander, in a recent talk here, said if St. Louis rolls up a 5000 membership here in the next sixty days they will have a mighty strong claim for the Home Office. Just think of it, 5000 out of a population of 70,000 to bring such an institution here—an institution paying \$100,000, or more a year, in salaries to our race—an institution ready and willing to support a mutual and financial interest of their race in any city, they go—an institution ready to help the sick, the needy and the distressed.

ONE-HALF MILLION dollars is now invested in real estate mortgages through the American Woodmen. This will be available to St. Louis if the Home Office comes here.

THERE is no reason why, St. Louis should flinch, but get to work and get the Order here. Ministers, business men, professional men and the lady—both men and women, should work as they never worked before in this Drive.

THE SUPREME CAMP OF THE AMERICAN WOODMEN

Was organized in Denver, Colorado, in 1901, by men who had given all their lives to the study of Fraternal Insurance.

Right rates, include and management were obtained from the start. It is based on the long term, when sick claims are adjusted and new applicants admitted and given the pass-word and sign, much the same as any other fraternal society.

First—Certificate range from \$100 to \$5000. Second—Certificate increased or decreased at will.

Third—All certificates carry accident, sick benefit and death benefits. Fourth—All certificates graduated on an adequate rate.

Fifth—All certificates guaranteed refund of premium in full, except in case of death or disability.

Sixth—The floor of local camp is appointed and bonded by Head Camp. Therefore local funds can never be stolen or squandered in the detriment of camp or your policy.

Seventh—No limitation, simple, the policyholder can change his plan at any time.

Eighth—Rates the same every month. Never a tax of extra assessment of any kind.

Ninth—All mortgage funds invested in bonds and used solely for payment of claims.

Tenth—All claims paid in full and at once.

THE SUPREME CAMP OF THE AMERICAN WOODMEN

Issues a combined life and accident certificate to men and women alike, making it possible for the entire family to join the same camp, insured on same method and participate in all benefits of the Order.

All certificates and accident benefits as stipulated in the constitution, are paid for four years, thus insuring the policyholder against loss of his policy and enabling him to maintain his low rates. This works no hardship on the lowest account, for if he should die during the first year of membership, more than ten thousand per cent would be paid for beneficiary on the investment.

JUVENILE DEPARTMENT

The Juvenile department of the American Woodmen is operated very much the same as the adult department of other fraternal societies. Children admitted from 10 years old and given sick and death benefits.

Put your children in it. It helps to get in the young people a sense of their filial obligations. It helps to train them and give them the sort of education they cannot get in school or home.
